FACTS

12. Plaintiff, Michele O'Connell has received medical care from Defendant Dr. Davison, her primary care physician through Defendant Kaiser for several years, including January 2010 until December 2014.

13. In 2011, Plaintiff was diagnosed with breast cancer.

14. On July 6, 2011, Plaintiff underwent a lumpectomy performed by Defendant Kaiser, Defendant MAPMG and its employees.

15. In September of 2011, Plaintiff Michele O'Connell underwent a bilateral mastectomy at Defendant Kaiser Permanente's facility in Springfield, Virginia. This procedure was performed by employees, agents and/or servants of Defendant Kaiser and Defendant MAPMG.

16. Shortly thereafter, Plaintiff O'Connell began the breast reconstruction process. During this process she was treated by Defendants Kaiser and MAPMG's doctors and physical therapists, including but not excluding, Defendants Antabli, Rhim, Davison and Silvers.

17. Throughout the fall of 2011, and throughout 2012 and 2013, Plaintiff Michele O'Connell made repeated complaints of pain in her sternum and surrounding area. She repeatedly made these complaints of pain to Defendant Antabli, Defendant Rhim, Defendant Davison and Defendant Silvers, during this time period.

18. During several appointments in 2012 and 2013, Plaintiff made repeated complaints of pain in her sternum area to Dr. Antabli. Despite these complaints of pain, Dr. Antabli failed to order an MRI, CT Scan and/or other types of diagnostic tests to treat Plaintiff and/or to determine what was the cause of the pain in Plaintiff's sternum area.

19. During several appointments in 2012 and 2013, Plaintiff made repeated complaints of pain in her sternum area to Dr. Rhim. Despite these complaints of pain,

Dr. Rhim failed to order an MRI, CT Scan and/or other types of diagnostic tests to treat Plaintiff and/or to determine what was the cause of the pain in Plaintiff's sternum area.

20. During several appointments in 2012 and 2013, Plaintiff made repeated complaints of pain in her sternum area to Dr. Davison. Despite these complaints of pain, Dr. Davison failed to order an MRI, CT Scan and/or other types of diagnostic tests to treat Plaintiff and/or to determine what was the cause of the pain in Plaintiff's sternum area.

21. During several appointments in 2012 and 2013, Plaintiff made repeated complaints of pain in her sternum area to Ms. Silvers. Despite these complaints of pain, Ms. Silvers failed to order an MRI, CT Scan and/or other types of diagnostic tests to treat Plaintiff and/or to determine what was the cause of the pain in Plaintiff's sternum area.

22. In January of 2014, after the continued pleas of Plaintiff, Defendant Antabli finally ordered additional tests, including an ultrasound and CT Scan.

23. After receiving these initial tests, Defendants' employees stated to Plaintiff that there was a mass in her chest, but it was merely scar tissue and/or could potentially be a leakage of her breast implant.

24. However, additional tests were ordered wherein this initial diagnosis was disputed. Finally, on February 11, 2014, Dr. Booth, Defendants Kaiser and MAPMG's employee, advised the Plaintiff that the mass was not scar tissue and looked like a

potential desmoid tumor. At this time, Dr. Booth was unable to definitively diagnose the mass, but stated that it probably was not scar tissue.

25. Plaintiff continued to treat with Dr. Rhim, Dr. Antabli and Dr. Davison in 2014, to treat this mass and Plaintiff's complaints of pain. A surgery was performed by Defendants' employees on March 13, 2014, by Dr. Rhee, Defendant Rhim and others. During this procedure, Dr. Rhim and others removed the mass, removed a portion of Plaintiff O'Connell's chest wall, including several of her ribs and a portion of her sternum.

26. The mass was then taken to pathology and later the diagnosis was communicated to Plaintiff that the mass was, in fact, a desmoid tumor. This tumor has been described to Plaintiff as a malignant tumor that required immediate removal.

27. Plaintiff continued to see Defendants Antabli, Rhim, Davison and Silvers on several dates in 2014, for follow up treatment as a result of the desmoid tumor and the surgery which was caused by it. Many of these dates included the following: March 27, 2014; April 9, 2014; April 22, 2014; May 15, 2014; May 23, 2014; May 29, 2014; July 3, 2014; August 4, 2014; September 4, 2014; September 25, 2014; October 9, 2014; October 17, 2014; and November 10, 2014.

28. Plaintiff continued to treat with Dr. Antabli from 2011 until October 17, 2014 for this condition and the resulting injuries.

29. Plaintiff continued to treat with Dr. Rhim from 2011 until April 9, 2014, for this condition and the resulting injuries.

30. Plaintiff continued to treat with Dr. Davison from 2011 until September 4, 2014 for this condition and the resulting injuries.

31. Plaintiff continued to treat with Ms. Silvers from 2011 until November 17, 2014, for this condition and the resulting injuries.

32. During the years of 2012 through 2014, Plaintiff continued to demonstrate signs and symptoms consistent with a desmoid tumor and developing trauma. Yet the condition was not diagnosed by the Defendants until several years later, in March of 2014. Due to this delay in the diagnosis, Plaintiff suffered severe and permanent injuries, including but not excluding, unnecessary surgeries, loss of several ribs, loss of a portion of her chest wall, and a permanent hole in her chest. These injuries cause Plaintiff a great amount of physical pain and anguish as well as difficulty breathing and in other activities of daily living.

COUNT I
(Medical Negligence)

Plaintiff incorporates by reference paragraphs 1 through 32 above, and further alleges that, at all times relevant to the allegations in the Complaint, the Plaintiff Michele O'Connell had a patient/health care provider relationship with Dr. Bassema Antabli, Dr. Chun Rhim, Dr. Davison, Janet Silvers, PT and all of Defendant Kaiser's health care providers and all of Defendant MAPMG's health care providers. By virtue of the patient/health care provider relationship, the Defendants' agents and employees were obligated to use the degree of care and skill of reasonably prudent health care providers practicing under the same or similar circumstances.

34. At all times relevant to the Complaint, all agents, servants and/or employees of Defendants Kaiser and MAPMG who were involved in the care and treatment of Michele O'Connell, entered into a relationship in which each such health care provider was required to act with the degree of care and skill of a reasonably prudent health care provider practicing under the circumstances presented.

38. Plaintiff further alleges that the negligent acts and/or omissions committed by the Defendants, through their agents, servants and/or employees, including but not excluding, Dr. Bassema Antabli, Dr. Chun Rhim, Dr. Davison, Janet Silvers, PT, directly and proximately caused or contributed to cause significant physical injuries, ultimately resulting in Plaintiff's severe and permanent injuries, including but not excluding, unnecessary surgeries, loss of several ribs, loss of a portion of her chest wall, and a permanent hole in her chest.

39. As a further direct and proximate result of the negligence of the Defendants, including but not excluding, Dr. Bassema Antabli, Dr. Chun Rhim, Dr.

Davison, Janet Silvers, PT, Plaintiff Michele O'Connell has suffered and will continue to suffer much physical pain, suffering, disfigurement, deformity, associated embarrassment, inconvenience and mental anguish.
