Claim # 14SC11860:

Dramatic for me, and I have been in constant and severe pain since July of 2012 and it is an ongoing pain. The amount I ask for in my settlement was a total of $750,000.00, that is for my pain, suffering and sleepless nights, which has a Great impact on my mental stage and health. I have gone through so much and my last request was for my dentist to send me to a Specialist in Vancouver Washington to have the tooth #19 extracted and I had to be put to sleep. The tooth was infected but the doctor was able to take it out by giving me my whole wisdom tooth back to me for keep sake. I have given Kaiser several months to make me an offer of $100,000.00 plus 50% of my implants bill, but it was not successful, it was as if I myself was at fault and I did however let them know that I was a diabetic an this has taken a complete toll on me they made an offer of 6500.00 for my implants, and then called and stated they would pay for everything, and yet sent a letter in April 20, 2014 Considering my payment, and to this date they have decided to wait for my 2 yrs to lapse, so I would be turned down. I have truly suffered through all of this and

Describe your concern.

I am quite frantic in regards to this situation, I signed a consent form, for this matter to be continued, not resolved. I have made several trips to the doctors, I just made a trip to Dr. Madden's office to get Unit #19 of the infection, It has been taken out and resealed. This does not help the damage already created, I have been under a lot of stress and my blood sugar has been quite higher than normal. I am still having constant mouth pain from 12/10/12 to date 12/17/12 the pain is more severe, I feel Kaiser should be responsible for my treatment, pain and suffering and I feel this should have resolved and I should not have to travel back and forth to the dentist for the same problem. I am going to pursue this matter

to my satisfaction, because I do not feel I should suffer the way that I have. And still in constant pain.

RE: Cheryl Willis
HRN: 7219-40-27

Dear Ms. Willis:

Your request for $750,000 compensation for the dental care you received on or around July 12, 2012, was previously received in the Risk Management Department.

Your request has been reviewed and the circumstances evaluated. As you may remember, prior to the procedure you signed the enclosed "Endodontic Informed Consent" form. This form clearly lists the risks which include "instruments separated within the canal." Due to this, I regret to inform you that the decision has been made to deny your request for compensation.

I do realize this is not the decision you would have wanted or hoped to receive. There is no appeal to this within the Kaiser system.

Very truly yours,

Teresa M. Keeney
